

Montserrat
has changed
a little bit :)

Why?

Why?

Because

it's alive.

**Life is
movement.**

**Life is
movement.
It changes.**

And “the
future is
larger than
the past”.

**We've been
working on:**

We redrew everything to make many subtle changes that make Montserrat even higher quality.

3. Languages

In early 2017 we extended the Latin glyph set to support over 100 languages.

**Coś zostało
mi powiedziane
po południu
i górze. Już
straciłem to.**

Obrovská noc
není to teď něco
jiného že vůně.

Bugün mutlu
değilim bahçenin
badem ağaçları.
Onlar senin
hafızan.

Från den dagen
Jag har inte flyttat
bitarna på brädet.

**Vapaa miekka
hän unelmoi
taisteluilustaan.
Toinen on
unelmani.**

**And now we are adding
a new glyph set to
support new languages:**

ВОДКА

Vodka

Polish: wódka ['vutka],

Russian: водка ['votkə]

Vodka (from Russian: водка ['votkə], Polish: wódka ['vutka]) is a distilled beverage composed primarily of water and ethanol, sometimes with traces of impurities and flavorings. Traditionally, vodka is made by the distillation of cereal grains or potatoes that have been fermented, though some modern brands use other substances, such as fruits or sugar.

Александр Родченко

скульптор, художник,
графический дизайнер
российский фотограф

Rodchenko considers facts related to freedom of movement. He used it as an alternative to painting, and he used his Automation Play to watch the video. This was in 1924, when materials were used, increasingly characteristic of his photomontages, when he resorted to the use of cameras.
